

# Actuador de freno

## Spring Brake Actuator

# 425 307

# 1

### Datos técnicos/ Technical Data:

|   |                              |
|---|------------------------------|
| Presión de funcionamiento<br>Operating Pressure     | max. 8 bar                   |
| Medio<br>Permissible Medium                         | aire / air                   |
| Rango de temperatura<br>Operating temperature range | -40°C a/to +80°C             |
| Carrera<br>Stroke                                   | 80 mm                        |
| Diámetro pistón<br>Piston diameter                  | Ø 100 mm                     |
| Oscilación vástago<br>Piston rod deflection         | max. 3°<br>3° max. all round |

Propósito y requisitos de instalación:  
ver 425 304

Purpose and Installation Requirement:  
See 425 304

| Referencia<br>Part Number | Dimensiones<br>Dimensions   | Característica<br>Characteristic                    |
|---------------------------|---|---|
| 425 307 012 0             |   | <p>Presión 4,5 bar<br/>Release pressure 4,5 bar</p> |
| 425 307 013 0             |   | <p>Presión 6,3 bar<br/>Release pressure 6,3 bar</p> |
| 425 307 018 0             | <p>con facilidad de liberación rápida / with quick-release facility</p> | <p>Presión 6,8 bar<br/>Release pressure 6,8 bar</p> |
| 425 307 020 0             |   | <p>Presión 5,8 bar<br/>Release pressure 5,8 bar</p> |
