

WABCO GENUINE PARTS. SAFETY, EFFICIENCY, RELIABILITY. EVERY DAY.

“Working with our customers, we have observed that installing copy parts can be a real threat for their business. Copy parts may fail more frequently resulting in additional downtime for maintenance and higher costs for repair.

We therefore recommend our customers to choose **Genuine WABCO Parts** to save money.”

Uwe Deutschmann,
Managing Director,
FW Automobile GmbH

Founded nearly 150 years ago, WABCO continues to pioneer breakthrough electronic, mechanical and mechatronic technologies for braking, stability and transmission automation systems supplied to the world's leading commercial truck, bus and trailer manufacturers.

WABCO

FW Automobile, part of the Wessling group, operates a commercial vehicle and a passenger car workshop in Rehburg-Loecum as well as another commercial vehicle workshop in Stolzenau. Offering to customers a broad portfolio of services for commercial vehicles, construction machines and passenger cars, the workshop experts from Lower Saxony use state-of-the-art diagnosis and repair technologies and are a certified WABCO Service Partner for many years.

In an increasingly competitive market, some of FW Automobile's customers are tempted to save costs for repairs and maintenance by installing copy parts, often advertised as a cheap alternative solution.

However, the daily business has shown that customers that install copy parts on their vehicles often struggle with increased maintenance efforts as parts differ significantly in terms of quality and reliability and had to be replaced frequently. Correspondingly, they face additional downtimes for their vehicles, costing both, time and money.

CHOOSE GENUINE WABCO PARTS

FW Automobile takes special care for ensuring the use of reliable, high-quality replacement parts. Only by doing so, the company can offer their customers an efficient and cost-effective service. That is why FW Automobile decided to recommend to customers installing only Genuine WABCO parts. These parts are made of high-grade materials, are rigorously tested by WABCO to meet the highest quality standards and come with a 24 month product warranty. This helps their customers to prevent from spending money for excessive maintenance and at the same time to avoid potential safety risks.

Choose Genuine WABCO parts for reliable quality and to ensure safety and efficiency of your vehicles. Find more information about Genuine WABCO parts on:
