## **WABCO**

### **Certainly the right partner**

WABCO has followed one objective for decades: to make our roads safer. Through innovation and technical perfection in research, development and manufacturing, WABCO has become the leader in many market segments for pneumatic and electronic systems for commercial vehicles.

### **Intelligent solution in practice**

An example for a good synthesis in electronics and pneumatics is the WABCO ABS brake system, which is well-tried in practice since long and today used by leading vehicle manufacturers.

Even the drive-slip control (ASR) applied to be standard equipment for commercial vehicles.

A further range of successful WABCO systems are EBS (electronic brake system), ECAS (electronically air suspension system), drive line and air conditioning systems. And mechanical / pneumatical control devices enhanced the excellent reputation of WABCO products all over the world.

### **Success through world-wide co-operation**

WABCO is an important part of a world-wide cooperation of an international group of companies. WABCO companies are located in Austria, Belgium, South America, France, Germany, Great Britain, Italy, Poland, Spain, Scandinavia, Switzerland and The Netherlands, co-operation partners or joint ventures are in India, South Africa, China, Japan and USA. As well as this collection of co-operating units, WABCO offers a competent network for sales and service.

### **Service has great importance**

A staff of 6,000 employees ensure permanent service readiness in the near of our customers. This means competent consultancy in retrofit and repairment and smooth supply with WABCO genuine spare parts. And of course we offer training on the spot.

Our global effort powered us to leading company in this segment. With the competence and operational readiness of our staff, WABCO today owns a peak position. A position which is to be held and to extend. With reliability, security, quality and service, WABCO will be your partner for the future.
