

WABCO E-LEARNING: LEARN MORE, SPEND LESS

E-Learning is a gateway at your fingertips to WABCO's state of art knowledge, expertise and training. From whatever base you choose, and in your time, all you need is a computer and internet access. Once you login online, you can access WABCO courses on a wide range of commercial vehicle technologies, including braking and air suspension systems. Simply by pointing and clicking with your mouse, you have an exciting new way to improve the effectiveness of your training while saving time and money.

E-LEARNING

THE BENEFITS OF E-LEARNING

E-Learning offers several advantages to traditional classroom training, and is therefore an excellent complement to other training methods such as practical “hands on” training in one of WABCO’s training centers.

WABCO E-Learning benefits include:

- **Global 24/7 “on-demand” access:** you have instant access to course content: at work, at home or when traveling, and from anywhere in the world. All course content is available 24 hours a day and 7 days a week.
- **Convenient:** because courses are constantly available, you work at your own pace and when it’s convenient for you. Each course is modular so it’s easy to learn in small increments of time and continue where you last left off or even repeat whatever you like.
- **Cost-effective:** saving you time and money because there are no costs for travel and

overnight stays (as is often the case with traditional classroom training.)

- **Easy-to-use:** all courses offer an easy-to-use graphical user interface and complete instructions. All you need to do is point and click with your computer mouse.
- **Relevant:** Course content is presented in a way that makes learning both engaging and enjoyable.

With E-Learning you can quickly and easily acquire detailed commercial vehicle knowledge before attending a practical training course. The online materials also provide excellent refresher training after completing a practical training course. By blending E-Learning with classroom and other learning approaches, your retention and understanding of important information is enhanced.

WABCO E-LEARNING COURSES

Each E-Learning course begins with a clear summary of what you will learn. Course content is modular, logically organised, and presented using multi-media tools (audio pictures and videos) for users. Even if you only have a few minutes available at a time, the course’s modular design makes it easy to learn key facts in small pockets of information.

Within each module, explanations of theoretical content are supported by a full complement of varied and highly interactive user exercises. By combining several different learning approaches, you are kept fully engaged throughout the course which make learning active and fun.
