

System Saver 1200 Plus

Integral purge
tank air dryer

- **INNOVATIVE** technologies offer high **PROTECTION** for the air system
- Improved **DRYING** performances with **PREMIUM DESICCANT**
- Spin-on cartridge considerably **REDUCES** service **COSTS**
- Integral purge tank **IMPROVES** air usage **EFFICIENCY** as no system air is required for drying the air dryer cartridge

WABCO

Innovative technology tailored to save you money

The System Saver 1200 Plus from WABCO has been developed to offer the highest standard in drying effectiveness. And it's drying performance that continues longer thanks to premium quality, longer lasting desiccant drying material and higher capacity cartridges.

Add the use of spin-on cartridges in two different sizes – 1200 and 1800 – to match your particular application, and fast, easy maintenance, and you'll see that when you turn to the System Saver 1200 Plus you're choosing for an innovative blend of efficiency, reliability and performance.

- Tested WABCO technology delivers high level of quality, reliability and durability
- Longer lasting and high protection against contamination
- Environmentally friendly removable, recyclable desiccant
- Lower maintenance costs due to longer lasting cartridge
- Allows for direct replacement of existing cartridge
- Simple service thanks to the use of proven and existing repair kits, which are externally serviceable
- Compatible with latest engine and EPA emission control systems

- Specifically developed for use also with North American brake system layouts
- Interfacing compatible to existing North American integral purge tank applications
- Market tested Air System Protector spin-on cartridge can be applied, also as retrofit
- Standard equipped with governor having improved functionality and faster response timing
- Compressor unload signal emanates directly from air dryer for a quicker response
- Improved internal sealing to endure higher inlet temperatures
- Availability with 12 or 24V DC heater
- Optional with enhanced and more durable Turbo Cut-Off Valve
- Dual integrated mounting brackets allow directional mounting
- Lower weight compared to competition products

When buying a WABCO product, please check that it contains the typical WABCO marks (particularly on the packaging, labels and identification plate) as evidence that it is an original WABCO part. In case you have any doubts, please contact WABCO or an authorized WABCO partner.

WABCO Vehicle Control Systems is one of the world's leading providers of electronic braking, stability, suspension and transmission automation systems for heavy duty commercial vehicles. Customers include the world's leading commercial truck, trailer, and bus manufacturers. Founded in the U.S. in 1869 as Westinghouse Air Brake Company, WABCO was acquired by American Standard in 1968 and spun off in 2007. Headquartered in Brussels, Belgium, WABCO employs more than 7,700 people in 31 countries worldwide. In 2007, WABCO's total sales were \$2.4 billion. WABCO is a publicly traded company and is listed on the New York Stock Exchange with the stock symbol WBC.
