

OFF-HIGHWAY VEHICLES

Advanced Safety and Efficiency

WABCO's off-highway portfolio comes with innovative systems for industry segments ranging from construction & mining to agriculture, cranes and specialty vehicles. Tested, trustable, high-quality WABCO products deliver improvements in vehicle efficiency and better environmental performance, while offering high safety capabilities.

With decades of experience in compressors, suspension and braking systems, active safety and trailer technology, WABCO systems are designed to reduce operating costs, streamline vehicle maintenance procedures and reduce emissions.

Expertise in systems integration and a reputation for reliability have made WABCO a trusted supplier to the global commercial vehicles industry. For tailored off-highway vehicle control solutions, WABCO has the answers.
