

THREE STEPS FOR PEACE OF MIND...

Step 1: Check the security seal

Step 2: Match tesa PrioSpot® with serial number

Step 3: Verify the unique serial number

www.wabco-auto.com/WABCOoriginal/onlineverification

You can enter the unique serial number online or scan the Data Matrix code with the NEOREADER application available at: get.neoreader.com

If the seal is open or digits don't tally, please contact us immediately on: WABCOoriginal@wabco-auto.com

Check it out for yourself on:

www.wabco-auto.com/WABCOoriginal/onlineverification

and simply enter the unique serial number on the label below.

WABCO

© 2013 WABCO. All rights reserved. 820 010 075 3 / 07.2013

WABCO Original parts supplied within WABCO's independent aftermarket network are delivered to you in this singular, uniquely secure and easily traceable package.

You always know that you've got a genuine WABCO part in your hands.

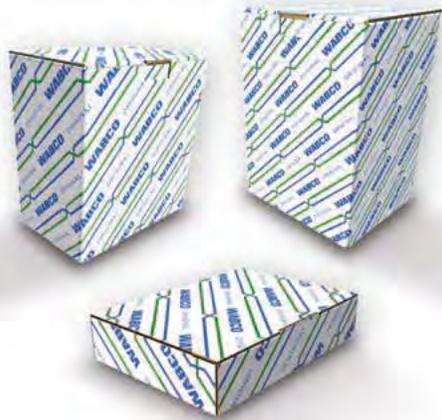

[Open up to find out more...](#)

NOTHING LIKE A WABCO ORIGINAL

Our new state-of-the-art packaging represents a major advance in the identification, protection, delivery and storage of WABCO parts.

The design is impressively simple: the blue line symbolizes safety and the green line symbolizes efficiency. These are the standards that WABCO brand has always stood for. Now the packaging of WABCO Originals delivers the same industry-leading values.

And whatever the size of the box that your order arrives in, the packaging will always be identical, with a security seal, uniquely coded product label and matching serial number.

COMPLETELY SECURE

Every package is closed with at least one tamper-proof security seal.

Once opened, a broken seal is clear for all to see. It will say 'opened' in six languages and there's nothing anyone can do to reverse it. This means that you know if you are the first to open the box.

TOTALLY TRACEABLE

The uniquely coded security product labels make it easy to identify that you have a WABCO Original in your hands.

Thanks to the tesa PrioSpot® technology, every WABCO package carries a unique serial number that is impossible to reproduce and can be immediately verified online.

And to make your inventory easier, the label gives the date of packaging, product number and description and delivery note.

So you not only benefit from trackable packaging that totally foils counterfeiters, but you will also find it faster to identify WABCO parts on the shelves.

PACKAGING YOU CAN TRUST

You can rest assured that WABCO's packaging is as reliable and technologically advanced as the parts it contains, letting you concentrate on the serious business of keeping vehicles and their drivers on the road.

There's simply no room for doubt. You know it's a WABCO part and you can prove it's a WABCO part.
