## Leakage Detector

*Hear what the bare ear could never hear!*

SAVE UP TO 90% TIME WHEN DETECTING LEAKS  
IN BRAKE, SUSPENSION AND AIR-CONDITIONING SYSTEMS

TIME-EFFICIENT  
SATISFACTION  
PRECISE **FAST**  
RELIABLE CLEAN  
SIMPLE FLEXIBLE  
AFFORDABLE **HANDY**  
**SAFE**

Are you tired of unreliable methods of leakage detection?  
Do you struggle with small leaks that you simply can't hear with the bare ear?

WABCO has designed a convenient, time-efficient and clean solution for you. In systems with non-flammable gases under pressure, leaks can be detected with ultrasonic technology. The **WABCO Leakage Detector** transforms the ultrasonic signal into audible sound and indicates the size of the leak optically on a display.

**WABCO**

*Finding the weak spot is a specialist's job. A heart condition, an airway obstruction or just a common cold? In the right hands (and ears), a **stethoscope** will provide the answer. Now you can use the **WABCO Leakage Detector** to hear any leak in any system. With WABCO, you become the specialist.*

“ When a truck comes in for service, we do a two-minute routine check for leaks. On one occasion, we identified 2 smaller leaks caused by two worn out screwing connectors. To avoid further damage and costs, we repaired them. The result: a customer that was very happy we were so thorough, and some additional business for the workshop. ”

### Benefits to professionalise your services

- ✓ Extremely **time efficient** in what used to be a time consuming job - if there is a leak you will find it within 2 minutes
- ✓ Because leaks can be detected so quickly, the scan can become a standard procedure for all serviced vehicles – resulting in more **satisfied customers** and additional business
- ✓ **Immediate detection** of even small leakages (avoids faster wear)
- ✓ By offering an extra service, you generate **additional business** for your workshop
- ✓ Much more **reliable and precise** than conventional methods
- ✓ **Simple, clean and safe to use** (no more spilled corrosive liquids)

### An indispensable tool, the most time-efficient system on the market

- ✓ No calibration needed
- ✓ Flexible probe swiftly checks even hard-to-reach areas
- ✓ Handy set with WABCO Ultrasonic Detector, isolating headphones, power supply, sensor, cable and sling
- ✓ Affordable, so every workshop should have one as it results in significant time savings, more business and happy customers

### WABCO Leakage Detector

- is used by our service partners
- is based on established technology within safety relevant industries such as chemical or aviation industry
- is built on more than 25 years of diagnostic experience
- uses the proven expertise of 150 years in automotive parts manufacturing
