There's a sound way to find out, with our ultrasonic tool!

A PROVEN TOOL TO DETECT THE SMALLEST WHISPER OF A LEAK
IN DOOR AND WINDOW SEALS OF COMMERCIAL VEHICLES

COST-EFFICIENT QUICK
SIMPLE
SAVES TIME RELIABLE
PRECISE
MAINTENANCE FREE
HIGH QUALITY

Wouldn't it be great to have a quick and reliable system to find leaks in commercial vehicles?

Damage and leaks on door and window seals are constantly occurring problems. They may result in annoying noises in the vehicle's interior and unwanted penetration of moisture. Identifying these often tiny leaks is a time-consuming and complicated challenge for any workshop. Probably the most reliable solution on the market: the **WABCO Ultrasonic Transmitter**.

WABCO

*Examining a seal is a specialist's job. Medical doctors have a **light** way to see if your hearing is impaired by, for instance, a small leak in your ear drum. Pretty much like the **WABCO Ultrasonic Transmitter** will help you to detect leaks in seals immediately. **With WABCO, you become the specialist.***

“ Finding the cause of humidity entering a vehicle used to be a very time consuming job. If we could find it at all! A successful repair was not always made. The Ultrasonic Transmitter made the job much easier: it saves us time, and makes a specific, cost-efficient repair possible. **”**

Benefits to support your business

- ✓ **Maintenance free**, no need for calibration
- ✓ **Quick, time-saving** and **simple** diagnostics of damaged door & window seals
- ✓ **Reliable** and **precise state-of-the-art** technology
- ✓ Easy to handle **high-quality** device
