

NEW ON DVD: WABCO SYSTEMS – VIRTUAL TOUR

New WABCO Training DVD:

Learn how WABCO systems for commercial vehicles work and function
It's virtual and entertaining!

The new DVD “WABCO Systems – Virtual Tour” offers training course participants in training centers, vocational and driving schools a clear and informative demonstration of the process cycles in commercial vehicles

The virtual tour covers a range of tractor and trailer areas, including air management, brakes and brake management as well as chassis control and air suspension. The training is supported by English or German explanations.

A clear menu structure provides for a good overview and facilitates easy navigation. The DVD can be used during training sessions and at home, either on a DVD player or a PC.
