

**Enhanced product range for air springs**

Due to customer demand, WABCO has improved sections of its air spring range. In this way we can continue to provide you with the products that perfectly match your requirements and our new catalogue will assist you in your selection.

**New catalogue is available immediately**

By using the new catalogue you will find the right product for your application faster and more efficiently:

- Extensive cross reference lists are grouped accordingly to make it easier to find a competition number or OE number faster and more efficiently
- A revised application list is included, sorted according to vehicle manufacturers and vehicle types, and including the OEM reference number.
- Technical product descriptions on the air spring variants with part number for the bellows.

The table below shows 7 adjusted air springs with their replacement numbers and the corresponding cross reference number:
