

E-Learning for TrailerGUARD™ available

We have already introduced you to the WABCO TrailerGUARD telematics system in a previous [Market Information](#) document.

Today we would like to inform you about the E-Learning course for TrailerGUARD, here you will:

- Acquire basic knowledge of TrailerGUARD operating principles.
- Become familiar with TrailerGUARD components, installation and commissioning.
- Gain insight into the integration of TrailerGUARD in a network with cooling and vehicle control systems from other suppliers.

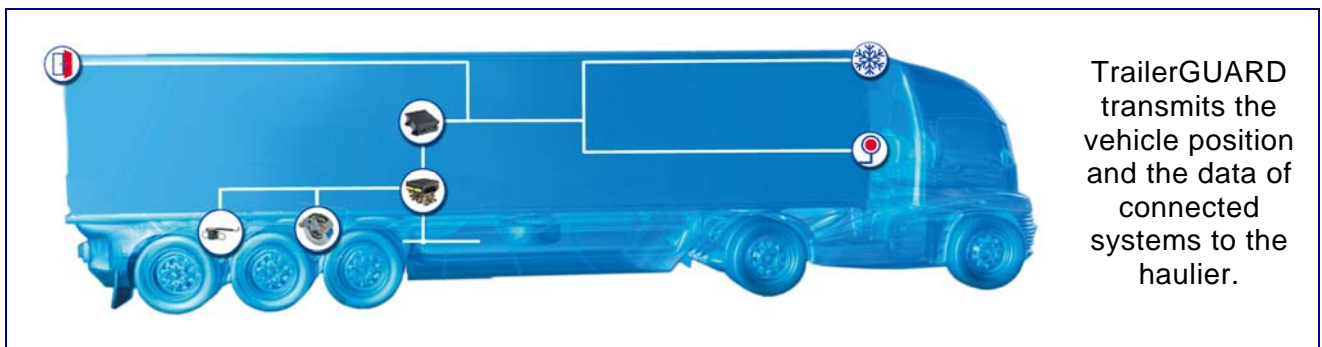

E-Learning means: You can start to learn straight away. You can determine the speed at which you learn. You can stop at any time, e.g. continue with the course the following day.

[Access E-Learning here.](#)

This E-Learning course is already available in German and English.

You can purchase access to the course by credit card or by using the retail system:
Order number **200 300 107 0**.

You can also test a [demo version](#) of this E-Learning course free of charge.

TrailerGUARD transmits the vehicle position and the data of connected systems to the haulier.
