

NEW MARKINGS ON AIR RESERVOIRS

As a specialist in compressed air braking systems, WABCO can offer you wide range of air reservoirs made of steel and aluminium as well as clamping bands.

WABCO receives some of its air reservoirs from LINNEMANN SCHNETZER, the market leader in air reservoirs for trucks, buses and trailers in Europe.

LINNEMANN SCHNETZER has been operating under the name of FRAUENTHAL AUTOMOTIVE since July 1st 2012. This new brand name is now also inscribed on the type plates for the WABCO air reservoirs.

The high quality of air reservoirs, combined with long service life and the greatest possible safety, has remained unchanged of course.

frauenthal automotive
 Typ: WABCO 950 530 002 0
 Typ: 112279
 Serie: FAH 416414 Ind.: a
 T min / max: -50 / 100 °C
 V: 30,0 L Ps: 15,5 bar
 EN 286-2: 1992
 Baujahr: 2013

OVERVIEW OF WABCO AIR RESERVOIRS

Below you will find an overview of some of the air reservoirs available from WABCO.

WABCO air reservoirs with new type plate

This overview only includes those compressed air containers that have the FRAUENTHAL AUTOMOTIVE brand name on the type plate.

WABCO number	Volume (litres)	Diameter (mm)	Material
950 060 003 0	60	310	Steel
950 060 004 0	60	396	Steel
950 060 009 0	60	300	Steel
950 080 002 0	80	396	Steel
950 080 903 0	80	396	Aluminium
950 100 002 0	100	396	Steel
950 105 001 0	5	154	Steel
950 110 002 0	10	154	Steel
