WABCO CLUTCH SERVOS

WABCO offers more than 40 years of leadership in providing highly reliable, long lasting clutch control systems. The WABCO clutch servo enables the driver to disengage and engage the clutch with minimum of clutch pedal effort. It is a pneumatically assisted hydraulic clutch actuation device, leading to safer and more efficient gearshifting.

To find out more about WABCO's clutch servos, visit the [INFORM](#) online product catalogue at the WABCO website www.wabco-auto.com and enter the WABCO number in the search field Product Number.
