

AIR RESERVOIRS: CHANGE OF THREADED RING OUTSIDE DIAMETER

As a specialist in compressed air braking systems, WABCO offers a wide range of air reservoirs made of steel and aluminium as well as clamping bands. WABCO cooperates with FRAUENTHAL AUTOMOTIVE, the market leader in air reservoirs for trucks, buses and trailers in Europe.

For reasons related to the harmonisation of production at WABCO's supplier, the outside diameter of the threaded ring for 30 air reservoirs will be changed from Ø 35 mm to Ø 32 mm.

WABCO air reservoir with new threaded ring (outside Ø 32 mm)

IMPORTANT TO KNOW

- The change does not affect the functionality of air reservoir
- Inner threads M 22x1.5 mm are not changed
- The outside dimensions of threaded rings are not stated in WABCO drawings
- Declaration of conformity acc. EN 286-2 is available at our product catalogue [INFORM](http://inform.wabco-auto.com) (inform.wabco-auto.com) by entering the product number in the search field "Product Number" and clicking the radio button "Publication".
- The change will be implemented at the production line in August 2013

Product number	Volume (litres)	Diameter (mm)	Material
950 060 003 0	60	310	Steel
950 060 004 0	60	396	Steel
950 060 009 0	60	300	Steel
