

NEW GENERATION OF THE WABCO COMPRESSED-AIR TEST CASE

The WABCO compressed-air test case is standard equipment for workshops and has been a reliable assistant for tests on commercial vehicles for years now. Now a new generation is available to meet current and future requirements in your workshop.

IMPROVEMENTS

- Six hoses in different colours improve the organisation of your test procedure, because confusing the connection points on the vehicle is no longer possible.
- Using the included duomatic adapter you can now also test drawbar trailers equipped with the WABCO duomatic system quickly and easily.
- The trailer test device enables quick and convenient testing of semitrailers and drawbar trailers. Particularly the testing of LSV control and the configured predominance have been greatly facilitated in this respect.
- The modern case design is compelling and provides ideal protection for the devices.
- Shorter wing nuts facilitate connecting the compressed-air hoses to the test ports on the vehicle.

CONTENTS OF THE COMPRESSED-AIR TEST CASE

Product name	Product number	Quantity
Calibrated pressure gauge 16 bar	453 004 007 0	5
Calibrated pressure gauge 25 bar	453 004 009 0	1
Test hose blue	452 600 003 0	1
Test hose white	452 600 004 0	1
Test hose red	452 600 005 0	1
Test hose green	452 600 006 0	1
Test hose yellow	452 600 007 0	1
Test hose purple	452 600 008 0	1
Three-way cock unit	452 002 550 0	1
Trailer test device	899 709 092 2	1
Duomatic adapter	452 204 910 0	1
Coupling connection for dual-line braking systems	452 200 500 0	2
Sealing bag	435 002 530 2	1
Dual supports M16x1.5/M16x1.5	893 100 204 4	3
Dual supports M22x1.5/M16x1.5	893 101 164 4	2
