

NEW CLUTCH SERVOS FOR DAF AND VOLVO VEHICLES

WABCO has released five new clutch servo variants for DAF and VOLVO vehicles. These new WABCO clutch servos are 100% direct replacements for OE and competition products.

SUPERIOR CONTROL WITH LONGER LIFE

WABCO Clutch Control components reduce required pedal force for easier clutch actuation. Safer gearshift operations can help to improve driving and vehicle safety.

As a technology leader in clutch control products, WABCO provides systems and components for manual and automated clutch actuation for light to heavy-duty truck applications, including:

- Hydraulic clutch control from master cylinder to clutch servo
- Pneumatic clutch actuator for automated manual transmissions
