

## WABCO EXTENDS CORE RETURN SYSTEM FOR GEARBOX ACTUATOR

Based on continuously increasing efforts to collect cores from the market, WABCO will extend its core return program and introduce from August 1<sup>st</sup> 2016 onwards a core surcharge for two remanufactured gear box actuators and a repair unit. The surcharge can be found in the current WABCO Price List. This surcharge will be refunded on returning the core (used part).

### SAFETY AND ENVIRONMENT

WABCO's reverse logistics process protects customers from the misuse or reconditioning of broken, damaged or worn out parts that give rise to critical safety issues. In addition, it supports WABCO's contribution to a better environment as it ensures that used products that are unsuitable for remanufacturing are appropriately disposed of.

*Gearbox actuator*

### HOW ARE USED PARTS RETURNED?

When buying one of the above mentioned gear box actuators or repair units from WABCO, you are charged a deposit that can be refunded for your existing one.

The returns process is operated through authorized WABCO partners. Please contact your [WABCO partner](#) ([www.wabco-auto.com/findwabco](http://www.wabco-auto.com/findwabco)) when you need to return cores or request further information.

- The refund for the used gearbox actuator or above mentioned repair unit will be processed once it has been returned to WABCO.
- A used part can be returned up to 1 year after purchase. The year starts on the date stated on the WABCO invoice.

The Core Returns Guidelines are available for download as a PDF file at the [MyWABCO](#) (<https://www.am.wabco-auto.com>) website. If you are not yet registered at myWABCO please follow the instructions online.
