

NEW LEVELLING VALVE – COMPOSITE VARIANT

Focusing on specific market needs, WABCO introduces new trailer chassis levelling valves in composite material.

The functional performance, specifications and interface are identical with the aluminium version.

BENEFITS

- Weight reduction of 20 % as compared to the aluminium variant
- Reduces potential contact corrosion compared to aluminum material

PRODUCT FEATURES

- Made of premium composite material
- Integrated push-to-connect (PTC) fittings
- Integrated T-connector for height limitation variant
- Fully interchangeable with old devices
- Quick installation

Composite variant of the levelling valve

VARIANTS

Two function variants are available as a single or dual circuit option:

- Basic
- Height Limitation

Variant	Circuit	Product number	Tube size	Remarks	Comparable aluminium variants
Basic	1-circuit	464 006 540 0	Ø 8x1		
Basic	2-circuit	464 006 500 0	Ø 8x1		464 006 102 0 464 006 002 0 464 006 002 7
Basic	2-circuit	464 006 580 0	Ø 8x1	Rod mounted from right hand	
Height Limitation	2-circuit	464 006 520 0	Ø 8x1		464 006 201 0 464 006 101 0 464 006 100 0 464 006 100 7
